REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or suggest the combination of the claimed apparatus as amended and supported by the reasons provided in the remarks of the amendment filed on 11/30/2008.

In particular, the prior art of record fails to disclose the claimed folding apparatus comprising among other features a deflector strip extends radially from a spur cylinder and circumferentially with respect to a spur needle circumferential shell surface to cover the spur needles and a leading end of each signature nor the deflector strip in a transfer gap shields an extended spur needles from contact with a released leading end of prior one of signatures during retrograde movement of a prior signature leading end along the spur cylinder circumferential shell surface opposite to the spur cylinder direction of rotation, see for example Figs. 6 and 7; via deflector 22 and spur needles 10 on spur strip 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
